Detective Suzy Frank will give a presentation on Elderly Crimes in order to help you avoid being a victim.

Elder crime and financial abuse is often referred to as the "silent crime." It cuts across social status, gender, race and ethnicity. In many cases, a victim might not know someone is stealing from them, or be so embarrassed that they stay silent. Perpetrators are usually loved ones, family members and caregivers putting the victim in a vulnerable position of being reliant on their abuser for help. Learn how to avoid scams and other crimes that target the elderly!
