RE: Pending Litigation

Dear Mr. Washington,

I was riding the Red Line to North Hollywood, CA on July 8, 2016 when I was attacked by other passengers. I believe it was a hate crime since I am white and the attackers were not. They were saying obscene and hateful things to me about being white. I was taken away in an ambulance to Kaiser and treated there. I was cut above my lip and now I have a scar. The Sheriff's took a report. I am lucky I am alive. I experienced a tremendous amount of emotional and physical damage.

I have submitted a claim to Metro as requested since my cell phone and prescription glasses were damaged. I would like those replaced since they are of a state of emergency.

I am also seeking legal representation.

Please accept this as notice.

Sincerely,

jillian peterson
